

## OPEN HOUSE DAY

TUESDAY  
MARCH 22, 2022  
09:30-13:30

Brookes International School in Saint Petersburg is pleased to respond positively to the recent challenging events in Russia, with absolute surety that the short and long term prospects of the school remain positive and that enrolment remains high. Equally, that there has been no downturn in the quality of teaching and learning and that we continue to receive foreign applicants to work in the school, this and next year.

Our academic fees remain competitive in a difficult market, and are in Rubles; this will provide certainty for families who are worried about fee increases due to exchange rates.

Brookes International School in Saint Petersburg welcomes all from the local and wider community to its upcoming Open House - to see what we really do! If you would like to register interest and come along to meet the Director and Head of School, please follow the link on our website:
